Horrors of the Cowardly Assault on the American Sailors in Valparaiso

New York, Oct. 31 .- A special from Valparaiso to the World gives the following account of an attack m our sailors.

Captain Schley's men had been on board the Baltimore several months without liberty. When he arrived at Valparaiso he received the usual visit of courtesy and an assurance of assistance. Other foreign ships were daily giving their men liberty. Therefore Captain Schley sent 170 men ashore. Of these, only four returned drunk, four overstayed their liberty, thirty-six were imprisoned, seventeen were wounded, one was killed outright and one subsequently died. Men received from five to twenty two wounds, mostly knife and bayonet cuts in the back, which would charactize the assault as unprovoked, brutal and dastardly. No mitigating circumstances have yet come to the World's correspondent's knowledge. It is probable if there had been any they would have been published.

Captain Schley ordered a court on board the Baltimore to take testimony. The result is said to be remarkable for clearness and connectedness

Two sailors in the street were as saulted by Chilians spitting in their faces. A crowd near by was waiting hard work the party once more to attack them should they resent the insult. The Baltimore's men wisely took refuge on a tram car. A Sound Liver Makes a Well Man. The crowd stopped the car and hauled the men out, beat them with taste in mouth, Foul Breath, Coated sticks and stones and knifing them. One man fell with twenty-two stabs and while a comparion was assisting him to a chemist's a policeman shot him through the neck. He died instantly. A second shot passed between the flesh and the shirt of the other man.

An officer with a white cap, presumably a gentleman, drew his sword and slashed both the living and the dead. The attack then became general.

FRIGHTFUL CRUKETY.

Sailors quietly eating in small restaurants about town were brutally beaten and stabbed. Mounted policemen arrived, but, instead of succoring the sailors, they began saber ing them. One man was tied, with nippers about the wrists, to a horse, which started at full gallop, dragging the man through the streets. Afterward another man was tied to a horse and hauled to the station with a lasso about his neck.

There were plenty of witnesses on shore to the shooting, but they were afraid to testify. One wrote an anonymous letter to Captain Schley and afterward visited the ship, but he says he would lose his life if he were known.

One woman saw the deed from a neighboring window. The men were obliged to sign a paper declaring that they were satisfied with the police conduct. The paper is in Spanish and the men were ignorant of its contents.

The Baltimore's men were completely unarmed. Those arrested were searched at the station. Only six ordinary pocket knives were found. The Chilian investigation was secret. Although Capt. Schley urged that an officer be allowed to be present, his request was denied on the claim that such proceedings are always secret.

It seems when there is a necessity for a dam the people are willing to build it though it may be expensive a great convenience.

The largest dam of any kind in the couthern hemisphere is that at Bretaloo, South Australia. It is built of concrete, has a capacity of 800 million gallons and cost \$585,000.

Consumption Cured. An old physician, retired from pracvice, having had placed in his hands by an East India missionary the formula of Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a posters in thousands of cases, has felt it his luty to make it known to his suffering tellows Actuated by this motive and a Noves, 820 Powers' Block, Rochester, dented in the history of the coun-29 I year try. - Journal of Agriculture.

A Tale From Japan.

Victoria, British Columbia. Nov. 4 .- The steamer Sussex, just arrived from Japan, brings word that five Many of the Passengers English naval officers on leave met with Americans, all brothers named together formed a plan to climb to the summit of Foji Yami, a high they intended to explode when they reached it. Having secured two not have the desired effect, coolly walked in front of the tourists and each with a sharp stroke of a hnife disembowelled himself before their horrified eyes. Both died instantly, in the deck room was discovered on and the youngest of the Castleton fire, and the entire boat was a mass brothers, a boy of 18, pulled out a of flames in a short time. Every of revolver and blew out his brains. fort was made to save the lives of rest of the party turned back and after the first day, and after Lieutenant Brown, R. N., had repeated the burial service of the English yawl was in charge of the first enchurch they threw it into a glacier gineer. The passengers lost everycrack several hundred feet deep and left it there. After two more days' reached level country.

The next day two of his brothers had shared his fate, and there was only one nestling left.

tary child faithfully. Then they drew off and discussed the situation. Was it worth while to raise a single bird? No! They would not do it. And, will you believe it? they basely deserted their nest. I tried to feed the tiny thing by hand, but it was wasted effort. It died of starvation and the cold, and a couple of mornings later its little form lay in the selfsame place upon the piazza. I do not doubt that the unnatural parents had pitched it over, for they were thinking of building another nest there.

But no Phœbe bird will ever build again on that piazza so long as I am alive to drive them away. I draw the

The Reading Habit.

acquire is the reading habit. The practice of looking about for a book or a paper whenever a portion of spare time is found becomes a habit that can not be shaken off. It grows into a desire for knowledge, and becomes a power for good if properly directed. Interest a boy in reading good and useful books. to Providence, but next time I will and provide him with the right class of literature, and he will find little time to form low and debasing associations or cultivate a love for the life of the saloon and billiard hall. He will seek his friends among the great and pure minds who have put so much of help, encouragement and strength into the printed pages. Teach your boy the reading habit. Discourage any rapid "skimming," but let him know the importance of thinking of what he reads. Let 'he reading habit grow into an observing habit, and the boy is safe.-Rural New
